

DESCRIPTION

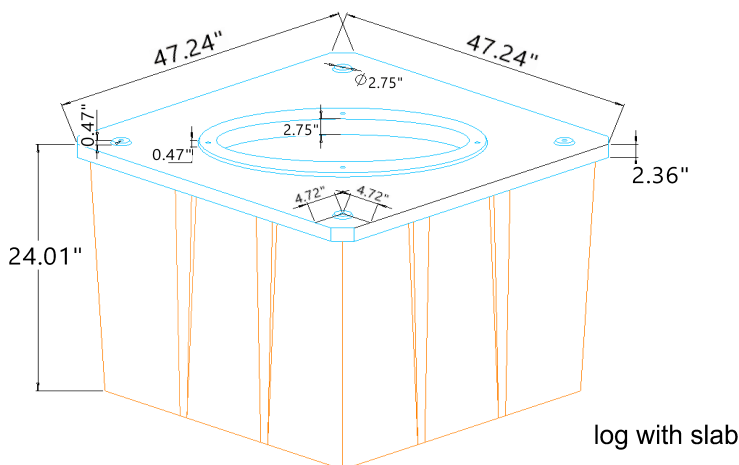

4x4x2' Fiberglass Manhole with a frame made of the same reinforced material; slab and extension rings made of polymer concrete with a stainless steel bolt for handling, and gray cast iron frame and cover.

UTILIZATION

HOUSE CABLES AND CONNECTIONS

FIBERGLASS CHARACTERISTICS

- Good thermal insulation
- Excellent dielectric properties
- Withstands high temperatures
- Chemically inert to acids and low porosity
- UV protection
- Fire retardant

TECHNICAL DATA SHEET

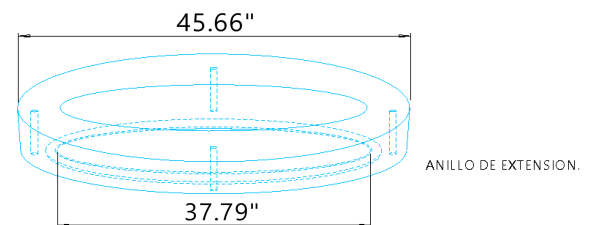

4X4X2 FT MANHOLE GRAY CAST IRON FRAME AND COVER

MANUFACTURED IN:

Fiberglass and polymer concrete
f' c= 7110 psi (1102.31 lbf)

INCLUDES FRAME AND COVER MADE OF GRAY CAST IRON OR POLYMER CONCRETE, ACCORDING TO CUSTOMER REQUIREMENTS.

With a compressive strenght 20 TONS

NAME: MANHOLE 4X4X2 FT		SPECIFICATION OR STANDARD: ANSI/SCTE 77
	SCALE: S/E	EDITION: 2010
	DIMENSIONS: inches	
	APPROX. WEIGHT: 1234.59lb
