

TECHNICAL DATA SHEET

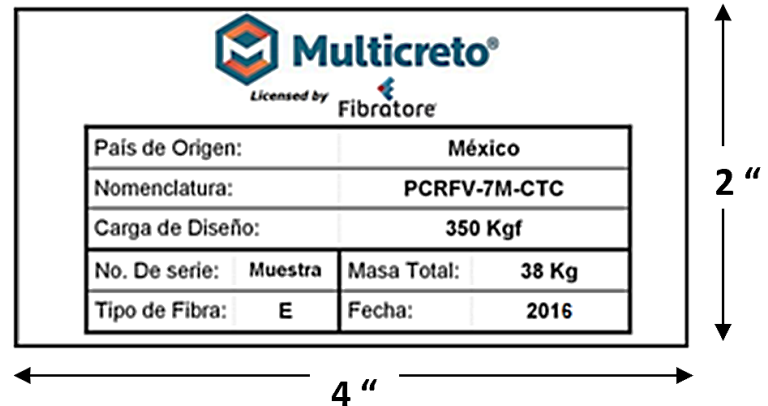

FRP POLE 43 ft. / 1650 lbf / CTC

FEATURES

Approximate weight (lb)	374.0
Comercial Height (ft)	43
NESC Grade B equivalency	Class 4
Nominal work load (lbf)	660
Design load (lbf)	1650
Safety Factor	2.5
Pole Height (ft)	42.7
Embedment Height (ft)	6.3
Base nominal diameter (in)	15.3
Embedment diameter (in)	14.05
Top nominal diameter (in)	5.9
Taper	1.8%
Manufacturing standard	ASTM D 4923-01

FIBERGLASS REINFORCED POLYMER

The identification plate is 4 inches wide and 2 inches high. It features the Multicreto logo and is licensed by Fibratore. The specifications are as follows:

País de Origen:		México	
Nomenclatura:		PCRFV-7M-CTC	
Carga de Diseño:		350 Kgf	
No. De serie:	Muestra	Masa Total:	38 Kg
Tipo de Fibra:	E	Fecha:	2016

IDENTIFICATION PLATES:

1. Marking embedded in the laminate
2. Translucent finish
3. Not removable

NOTES:

1. Gray finish with UV protection and self-extinguishing agent
2. Perforations according to customer's requirement.
3. Smooth exterior finish.
